

Performance Evaluation of DLE Application System

facilitating Distance Learning using Digital Conferencing facility (fDLuDCf) Project

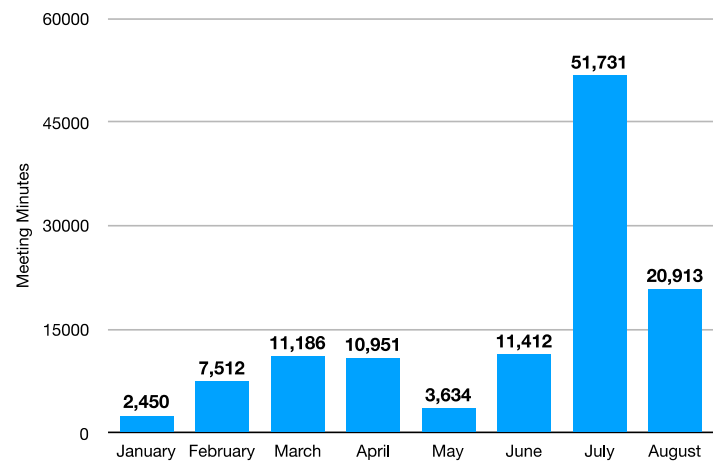

<https://dle.asiaconnect.bdren.net.bd/>

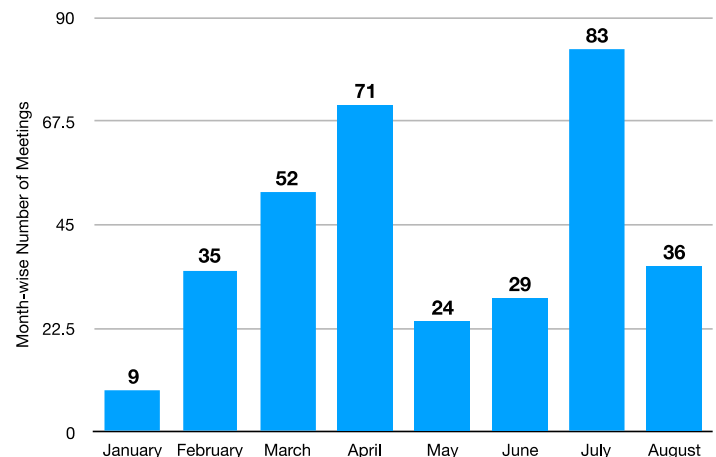

Background

This Workshop has been designed to collect feedback, analyze the feedbacks, assess the positives and negatives of the digital seminars and distance learning courses that have been conducted and to find out ways of improvement, if any. In addition to that the proceedings of the digital seminar that took place will be placed to the audience by CEO, BdREN for open discussion. Moreover, the progress of the project so far will be discussed and scrutinized. At the same time, the roadmap of the project in accomplishing future activities will be discussed and feedback will be collected from the representatives of the beneficiary countries. CEO, BdREN will also place the Financial Report to the representatives of the beneficiary country so that they can assess the progress of the project. Arrangements will also be made to announce the name of the award and certificate winners of the Distance Learning Course on “Cyber Security” and certificates and rewards will be awarded to the recipients.

BdREN's Month-wise Meeting Duration using Zoom Application

Month-wise Meeting organized by BdREN

Objectives
